

#### LARSON ELECTRONICS

» Featuring 26, 150-watt LED light fixtures, Larson's newest work area string light set provides 338,000 lumens of high-quality light while drawing 3,900 watts of power. It is UL1598 approved and ideal for inspection activities and temporary illumination in wet locations. Each fixture has a copper-free aluminum alloy body powder-coated for corrosion resistance and aesthetics.

[www.larsonelectronics.com](http://www.larsonelectronics.com)

#### SURFACE SHIELDS

» Kraft and red rosin construction papers are used as floor protection by the millions of square feet, but neither provides any type of impact resistance. Surface Shields' new Builder Board Project Edition surface protector is 22 pt. thick — nearly three times thicker than rosin papers — and provides breathable, impact resistant protection for months. For those looking to protect floors that are curing, Project Edition is completely breathable and bonds well with Builder Board Breathable Tape. It's also equally water resistant when compared to its "big brother," 45 pt.-thick Builder Board. Builder Board Project Edition is available in rolls 35 inches wide by 50 or 100 feet long.

#### SPECTRA PRECISION

» Trimble's Spectra Precision LT52 point and cross-line laser combines a five-beam laser pointer with a horizontal and vertical crossline laser for a wide variety of construction alignment applications. Points are round and focused for easy marking and are visible up to 60 meters (200 feet) away. The cross beams have a wide 210-degree fan angle which intersects the side and overhead points.

[www.spectralasers.com](http://www.spectralasers.com)

#### FESTOOL

» The CT SYS ultra-portable, compact dust extractor is HEPA certified, has tool-triggered operation, high-performance suction, self-contained hose and cord storage. It is designed to be carried via an integrated handle, or worn over the shoulder using an included shoulder strap.

[www.festoolusa.com](http://www.festoolusa.com)

#### DEWALT

» The new DEWALT DCE200 press tool is capable of pressing pipe fittings from 1/2 to 4 inches in copper and stainless steel pipe. It is compatible with a wide range of crimping heads and attachments, and the head pivots 320 degrees. This tool also features the Crimp Connect System, a bright LED work light and an LED cycle and maintenance panel.

[www.dewalt.com](http://www.dewalt.com)

#### GRABBER

» Grabber's portable PanelMax CM10 panel fabrication machine makes precise cuts in drywall and also creates perfect cuts and corners on interior gypsum that require no bead, tape or mud. The CM10 uses laser projection for exact positioning. The vacuum-equipped machine runs down each panel automatically, leaving a clean, dust-free cut ready for gluing and quick installation. The machine requires no extra floor space, as it rests directly on gypsum pallets to cut and mill each piece.

[www.grabberman.com](http://www.grabberman.com)

#### RIDGID

» RIDGID's new RE 12-M manual hydraulic crimp tool is the lightest and easiest to use 12-ton manual hydraulic crimping tool on the market. The RE 12-M is used for wire termination and grounding applications to crimp compression lugs and connectors onto copper, aluminum and ACSR wire and grounding rods. Its C-shaped head with 1.65-inch jaw opening has a 330-degree head rotation and is large enough for compression applications up to 1,000 MCM.

[www.ridgid.com](http://www.ridgid.com)

#### BIG FOOT TOOLS

» Big Foot Tools is proud to relaunch its 10 1/4-inch beam saw adapter kit for the newest 7 1/4-inch SKILSAW Model SPT77w. The new Big Foot saw adapter kit features a wider foot for more stability and is lighter than all of the competition in the 10 1/4-inch beam saw category, including the OEM SKIL version. The Big Foot saw is engineered in the USA to be tougher, lighter and safer to use.

**MULE HIDE**

» Mule-Hide TPO with CLEAN Film protects the membrane during installation and then is easily removed, revealing a roof ready for final inspection. No cleaning is required and there is no loss of initial solar reflectivity caused by dirt and scuffs. The 5-foot-wide sheets can be easily pulled up by a single crew member, with stress-free, splinter-free removal ensured for 90 days after installation.

[www.mulehide.com](http://www.mulehide.com)

**ALFA TOOLS**

» Alfa Tools introduces Tungsten Carbide Tipped Hole Cutters for cutting in many different types of materials including construction steel plate, stainless steel, iron, aluminum, copper, cast iron, fiberglass and plastics. They produce burr-free holes so there is no additional finishing needed. The one-piece construction requires no assembly and provides stable, accurate cutting for a wide range of applications.

[www.alfatools.com](http://www.alfatools.com)

**ROCKLER**

» Rockler Woodworking and Hardware's Dust Right Cord and Hose Hook lets woodworkers and DIYers hold dust and air hoses and power cords out of the way to reduce work-area clutter. It is made of glass-filled nylon for strength and durability. It incorporates four hooks: one large hook for 2 1/2- or 4-inch-diameter dust hose, a medium hook for air hose and two smaller hooks for power or extension cords.

[www.rockler.com](http://www.rockler.com)

**BOSCH**

» Brand new from Bosch, the IWMH182 18V EC brushless 1/2-inch impact wrench produces a whopping 2,213 inch-pounds of torque for applications including large lag bolts. It weighs just 3.6 pounds and has a head length of 6.4 inches for work in tight spaces. It provides an excellent performance-to-weight ratio that delivers 3,500 bpm and 2,600 rpm. Its EC brushless motor needs no scheduled maintenance and delivers up to twice the motor life versus a standard motor.

[www.boschtools.com](http://www.boschtools.com)

**SIMPSON STRONG-TIE**

» Simpson Strong-Tie now offers a redesigned prefabricated wood shearwall that provides greater installation flexibility for contractors and additional design options for specifiers. The Strong-Wall Wood Shearwall replaces the Strong-Wall SB shearwall and can be used in the same applications, including residential, multi-story and light-frame commercial wood structures. It features a holdown with visible front, back and side access to make it easier to install the anchorage attachment and easier to inspect.

[www.strongtie.com/wsw](http://www.strongtie.com/wsw)

**HOUGEN MANUFACTURING**

» Hougen's HMD917 magnetic drill features an LED pilot light that allows the operator to more efficiently and quickly line up the pilot in low- or no-light situations. A proprietary new high-torque, two-speed Hougen motor is the most powerful motor put on any Hougen drill. A two-stage magnet increases holding power by 30 percent when the drill motor is turned on. The HMD917 weighs just 46 pounds and drills holes 7/16 to 2 3/8 inches in diameter and up to three inches deep.

**PORTER-CABLE**

» P-C's new 16GA Straight Finish Nailer (PCC792LA and PCC792B) drives 1- to 2 1/2-inch nails and has a magazine capacity of 100 nails. The tool can drive up to 1,000 nails per charge using a 4.0-Ah PORTER-CABLE battery (sold separately), and up to 375 nails per charge using a 1.5Ah PORTER-CABLE battery (included in the kitted version). It weighs just 5.7 pounds sans battery.

HOW DO YOU **HIRE & TRAIN** THE NEXT GENERATION OF LEADERS FOR YOUR COMPANY?

THE INDUSTRIAL SUPPLY ASSOCIATION IS YOUR SINGLE **BEST SOLUTION**

Build the skills of your newer associates with the professional development programs offered through the ISA Education Foundation's Learning Center.

Plan for you and your new associates to attend the Foundation's regional Best and Brightest professional development programs.

Bring your new associates to the ISA annual convention's exceptional professional development sessions.

Enroll your new associates in ISA's exclusive Emerging Leaders Group.

Have your newer associates attend the ISA-sponsored University of Innovative Distribution.

To identify future associates, get actively involved in the Industrial Careers Pathway (ICP). This professional development program introduces high school and college students to a career in our great industry.

JOIN TODAY

[www.isapartners.org/join-isa](http://www.isapartners.org/join-isa)

ISA is the premier provider of professional and career development for the industrial supply industry.

Get started on the path toward building your next generation of sales and technical professionals.

### TIGERSTOP

» TigerStop introduces the TigerSPC, a configurable caliper set designed to make critical quality control measurements easy and affordable for parts as long as 16 feet. TigerSPC is accurate to +/- .006 inches (.15 mm) and has snap-on jaws to easily accommodate end-to-end, miter-to-miter, hole-to-hole, hole-to-center and hole-to-end measurements without having to recalibrate.

[www.tigerstop.com](http://www.tigerstop.com)

### MAGSWITCH TECHNOLOGY

» Magswitch Technology introduces a new way to align steel plates or press beam, the MagPress, which gives you two functions in one simple tool. With 1,100 pounds of hold force, the MagPress is the only way to level and align steel. Remove high/low with ease by placing the magnet on low, prying on high and welding with the other hand.

[www.magswitch.com.au](http://www.magswitch.com.au)

### HITACHI POWER TOOLS

» Hitachi's EC99S air compressor features an oil-lubricated cast-iron pump and thermal overload protection. This four-gallon twin-stack model weighs less than 53 pounds. Its 15-amp direct-drive induction motor produces 3.1 cfm of air at 90 psi and 3.05 cfm at 100 psi. The locking regulator and 105 on/135 off pressure switch means no worries about pressure wander or pressure-starved tools on the job.
