

REX-CUT ABRASIVES

» Fillet welds are structural, so it's important not to remove too much of the weld when finishing. Instead, a fillet weld should be reshaped into a radius through blending. Rex-Cut's Type 27 blending wheel helps fabricators blend fillet welds quickly while keeping the integrity of the weld intact. This versatile wheel allows the user to create a true radius shape. It comes in 4 1/2-, 5- and 7-inch sizes with A36 and A54 grits.

MIGHTY TIE

» Cord Control by Mighty helps keep job sites safe and organized by suspending temporary power cords above the ground. Cord Control systems by Mighty fasten extension cords to strut or directly to a wall to eliminate trip hazards. They are available in two sizes for temporary power and extension cords.

METABO

» Metabo's new high-torque SSW 650 1/2-inch corded impact wrench claims the best power-to-weight ratio in its class. Weighing in at only 6.6 pounds, the SSW 650 produces an impressive 450 foot-pounds of continuous torque. The 1/2-inch spindle features a detention pin, making this tool particularly well-suited for industrial applications. The SSW 650 features 3.1 amps/650 watts of power with a maximum speed 2,100 rpm and an impact rating of 2,800 ipm.

ROCKLER

» Rockler Woodworking and Hardware has introduced a new heavy-duty F-style bar clamp that delivers exceptional power, makes clamping faster and easier — and comes with a lifetime guarantee. Developed in partnership with Piher, a Spanish clamp maker known for quality, the Rockler piston clamp incorporates an enclosed, double-threaded piston-style mechanism. It comes in 16-, 24- and 32-inch versions.

ARROW FASTENER

» The Arrow T50DCD cordless electric staple gun has a unique design with a built-in 3.6-volt Lithium-ion battery that delivers 500 full-power shots on every full charge. This is up to 25 percent more shots than competitive products with 3.6-volt Lithium-ion batteries (which are only available outside the U.S.). The tool is lightweight with an ergonomic comfort grip that, combined with its cordless operation, provides ease of use and convenience.

COXREELS

» Coxreels is proud to announce the new Brawny option available for most 100 Series hose reels. The new Brawny feature is an option that adds strength to the drum, minimizing potential damage under increased or pulsing pressure usage. By adding the additional strength to the drum, these professional-grade reels are better prepared to tackle the toughest jobs in the industry.

BORA TOOL

» BORA Tool introduces the MiterX angle measuring and duplicator tool to create precisely measured angles. It precisely measures angles, and then locks the angle, even splits in half to transfer that exact angle to a miter saw. It measures internal or external angles from 0 to 180 degrees or miter angle from 0 to 90 degrees. It is collapsible and foldable for easy storage in a tool box and carries a lifetime warranty.
