How fast can you deliver? What are the best ways to let the channel know that you can?

As the construction industry and its supply chain grapples with shortage of labor and product, **Contractor Supply** has been at the center of a channel fighting to adapt to an unprecedented global pandemic and its resulting disruptions. Today, the industry is scrambling to produce and deliver product to a voracious market. Today's question is, *"How fast can you get it to me?"*

During the pandemic, we stepped up to help our channel partners adapt to a "new normal" that changed weekly and our readers responded by driving our website to **752,900 page views in 2021**.

Now, in 2022 and for the coming year at least, the industry's mission will be to restore the supply chain to normal — and the companies that can deliver the fastest will be the winners.

Advertising in **Contractor Supply** magazine, on our website and in our e-newsletters and custom e-blasts provides you with the direct link to the distributor market that is starving for your products. So spread the word. Advertise in **Contractor Supply!**

"I love Contractor Supply Magazine for many reasons but one main reason: it makes me stop and recognize what is going on outside my business, which informs my thinking about how to run my business. New products, new product categories, and new business practices all evolve from the types of insights Contractor Supply provides."

Craig Wilson, Owner and Retail Manager, Ottawa Fastener Supply
Ottawa, Ontario, Canada

FRONT-LINE COVER STORIES

Contractor Supply's mission is to give distributors "Critical to Quality" tools and strategies that can help them improve their business operations and profitability.

Our cover stories present real-world examples of how distributors are meeting today's critical issues by:

- Addressing competitive threats from local, regional and global entities — including COVID-19, the supply chain and labor shortages
- Forging long-term partnerships with customers and key suppliers
- Developing value-added services that create competitive advantage in their markets
- Building market share and long-term growth
- Adapting business systems to an online world
- Managing generational and succession challenges

THE SMARTEST PROS IN THE BIZ

Contractor Supply partners with STAFDA, The Evergreen Marketing Group, Sphere 1, NetPlus Alliance and other leading trade organizations on departments and guest articles that deliver the information and knowledge that distributors need today.

From business technology, inventory control, leadership, cash flow and collections to marketing and sales training,

we cover the gamut of business operations. Our guest contributors are all recognized experts in their fields — including designated STAFDA consultants.

TOMORROW'S TRENDS TODAY

In each issue, **Industry Updates** survey the latest products, technologies and trends across the construction industry. These updates bring **Contractor Supply** readers unprecedented access to and insights from the world's top manufacturers. We help you share your news on what's here now and what's coming next.

"NEW" MANUFACTURERS ARE DISCOVERING OUR CHANNEL

More manufacturers are discovering **Contractor Supply** every day as they seek to grow their distribution networks. As a result, our print magazine and website at www.ContractorSupplyMagazine.com is bringing these "new" manufacturers to our distributors readers like never before — and in the case of our website, often within minutes of receiving their news. **Contractor Supply** readers can search **nearly 7,000 pages** of news and articles and **more than 4,000 products** online.

A-LIST CREDIBILITY FOR YOUR AD

Advertising in **Contractor Supply** magazine and on www.ContractorSupplyMagazine.com positions your company among the industry's premier brands and lends your products an instant credibility that only the industry's best known, most respected team can deliver. Distributors know they can trust **Contractor Supply** and the products in it.

"Contractor Supply Magazine is the one-stop shop for industry news! It has all of the latest stories, industry trends, and new product launches that keeps me up to date with all things construction and contractor related."

Scott Smith, Regional Sales Manager,
Richpower Industries, Williamston, South Carolina

BULLS-EYE VALUE-ADDED SERVICES

From high-impact print options such as inserts, feature article reprints, sponsored covers and bands to laser-focused digital services such as surveys and email blasts, we will work with you to maximize the return on your media investment and cut through the cluttered market to reach the buyers who really matter.

TODAY'S TOP MARKET FAQ'S

Number One: You can't sell from an empty warehouse.

Today, the ability to fulfill contractor orders is the **number one challenge to the channel**. At **Contractor Supply**, we work every day to help keep distributors informed about your newest products and their availability. Across North America, distributors count on **Contractor Supply** for this vital new product and business management information.

Number Two: Contractors buy from Distributors, both for their products and their expertise.

As the pandemic churned though the ranks of contractors across every trade, the industry lost a vast wealth of knowledge which will take time to rebuild. Distributor expertise is more crucial than ever in helping contractors find the right products and explain their proper applications so jobs can proceed quickly, correctly, profitably and safely.

Number Three: Suppliers and Distributors know they can trust Contractor Supply.

With more than a decade of loyal service to the construction supply channel, **Contractor Supply** has proven itself to be the most reliable source of product and best practice information in the industry, period.

» MECHANICAL REQUIREMENTS

A. SWOP STANDARDS APPLY

(Specifications for Web Offset Publications)

B. PREFERRED MATERIALS

Digital file complete with layout, fonts and supporting graphics files in a hi-res PDF format.

C. PDF FILES

PDF files are encouraged and should be created with the following specifications.

1. All fonts should be embedded.
2. No RGB or lab images should be used; make sure all images are 300 dpi CMYK.
3. **Density of tones 300% or less.** Densities higher have potential of blistering on press causing additional charges for down-time.
4. A rich black color should be used to avoid a washed-out appearance whenever large lettering, graphics, boxes or backgrounds are to print as black (*small text should remain 100% black to avoid registration issues on press*). **A rich black should also be used if the color overlaps any other graphic element to avoid ghosting of the overlap.** Use values of 40C/40M/30Y/100K to create a rich black.
5. **Full page ads must be provided with 1/8" (0.125") bleeds on all 4 sides.** Bleed size is 8.625" x 11.125" and the ad will be trimmed to 8.375" x 10.875".
6. Zip compression with down sampling set no less than 300 dpi.
7. Color management set to "none".
8. The "press" preset in the standard Acrobat will usually create an acceptable PDF for both Macintosh or PC.
9. After creating a PDF, **view the file with "Overprint Preview" to verify actual output.**

D. NATIVE FILES

1. Macintosh and Windows-based files are usable. **High resolution files placed by the customer must have all color corrections/ alterations done prior to releasing the digital file to Direct Business Media LLC.**
2. All images need to be saved in CMYK mode. EPS or TIFF files are preferred. Do not compress images using JPEG or LZW.
3. Provide all supports related to the digital file (i.e., entire font families, hi-res images and logos). Any third party extension (i.e., Pasteboard) must accompany digital files. We cannot accept native Corel, Microsoft Publisher or PowerPoint files. These programs are not compatible with high-resolution output equipment. If you create files using one of these programs, please recreate in a program listed above, convert the file to a print-ready PDF.

E. DESIGN RECOMMENDATIONS

1. Spread copy should be laid out to avoid reading matter or any important part of an illustration running into the gutter. Please do not break type on gutter.
2. In preparing copy, restrict thin lines and small lettering to one color. Reproduce all reverse lettering with a minimum of colors. Avoid small letters with fine serifs when using reverse lettering.

CUSTOM E-BLASTS

Third party/custom e-blasts

\$1,935/blast

Our ultimate fast-response marketing tools, custom e-blasts deliver your message in its purest form to our subscribers — with no clutter, no competition and no waste.

- Custom e-blasts can be sent to your choice of **Contractor Supply's** distributor subscribers or manufacturer subscribers, depending on your intended target audience.
- Plus, our custom e-blasts are well received. The average blast has average open rate of 21.33% and an average click-through rate of 20.56%, based on the number of opens.

And, **Contractor Supply** subscribers are 100 percent distribution channel professionals; we do not reach out to contractors, DIYers or hobbyists. So each response to your e-blast represents a potential long-term commercial customer for your products or services.
